13,000 ft+ (4,000 m)

Coast & open sea: surface to 1,000 ft (300 m).

HOW BIG?

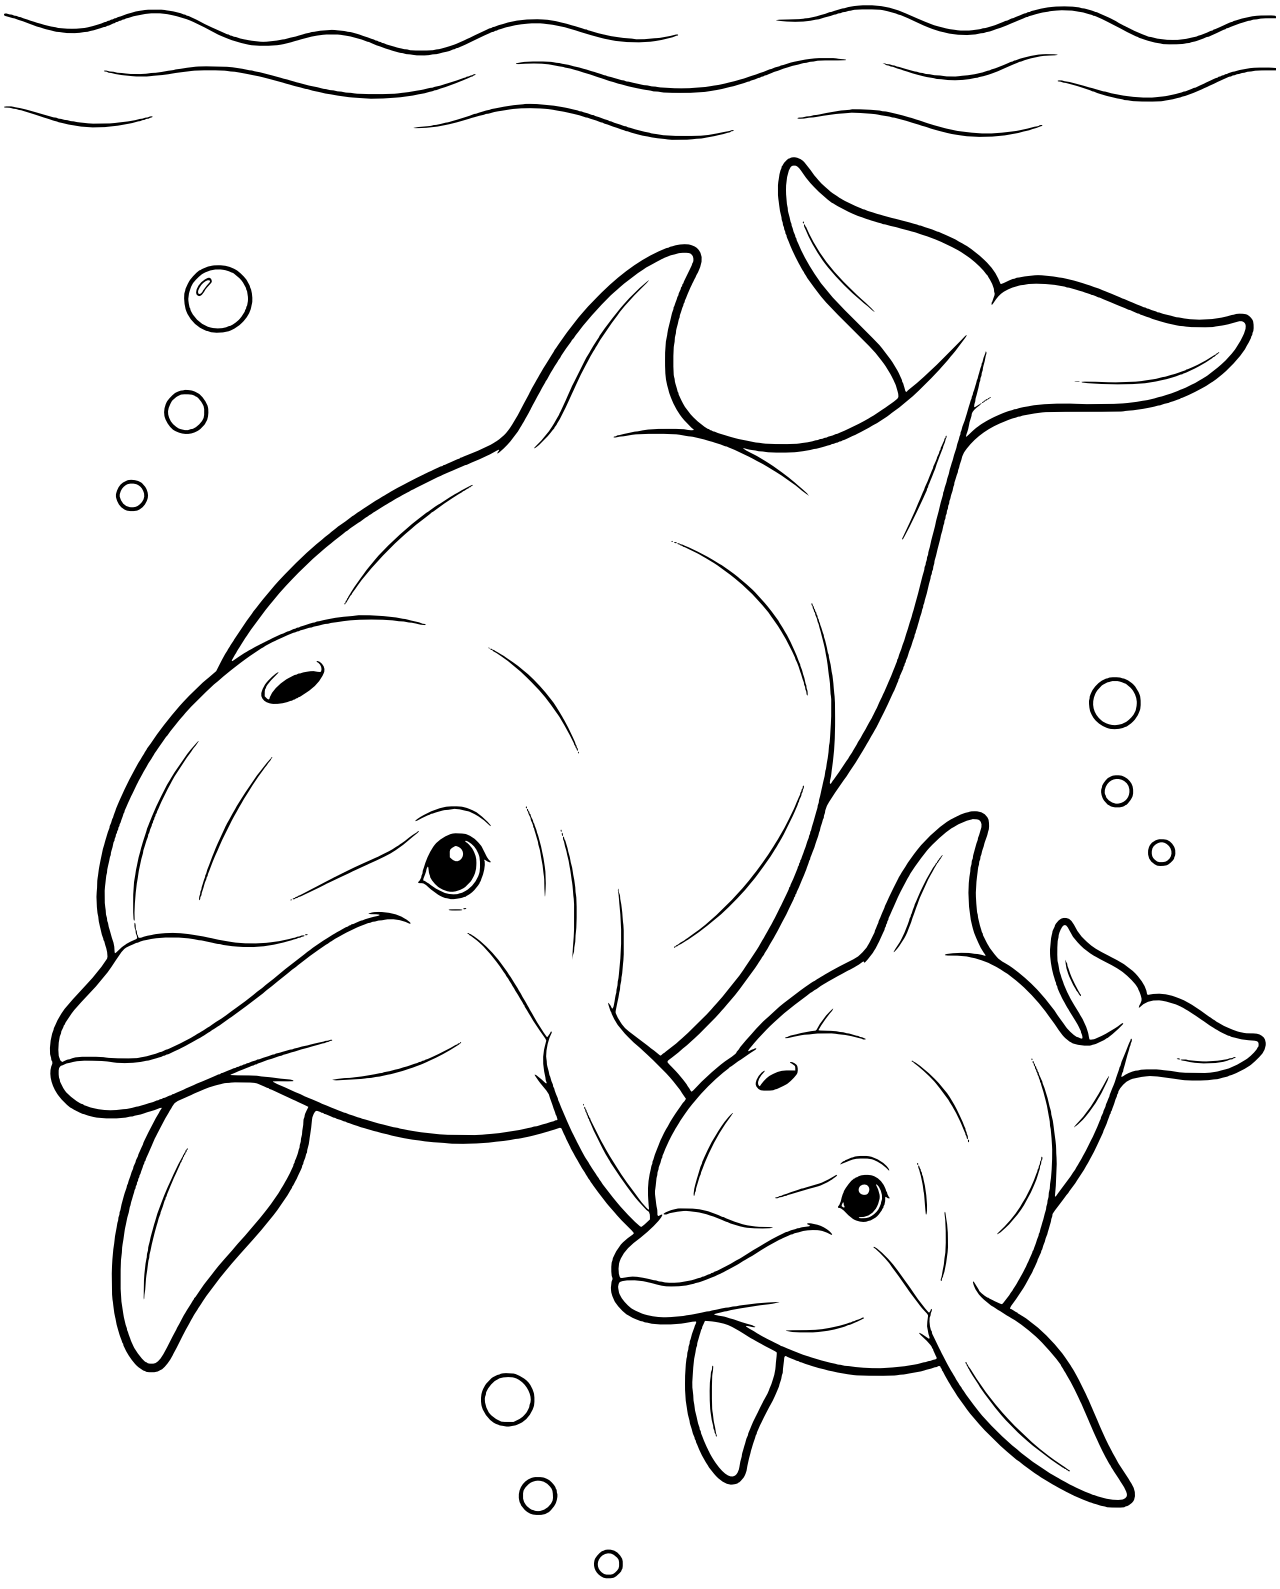

Dolphin
up to 13 ft (4 m)

A 6-year-old
about 3 ft 9 in (114 cm)

A big bottlenose dolphin can be more than three times as long as you are tall!

Dolphin

Say it: DOL-fin

A dolphin rests one half of its brain at a time, so it can keep swimming and breathing.

☐ **Can you find its blowhole?**
